

# PCM REGIONAL CONSERVATION PARTNERSHIP PROGRAM

The Natural Resources Conservation Service (NRCS) offers PCM farmers funding to grow cover crops.

## BENEFITS

Farmers can receive anywhere from **\$35-\$64 per acre** to grow cover crops. Many options are available and funding level increases with more advanced overwintering species, longer contract length, and increased acreage.

## REQUIREMENTS

Your PCM Specialist can give you the application for your local NRCS office. Applications are screened, ranked and rated. Approved applications are notified for contract development.
