

PCM REGIONAL CONSERVATION PARTNERSHIP PROGRAM

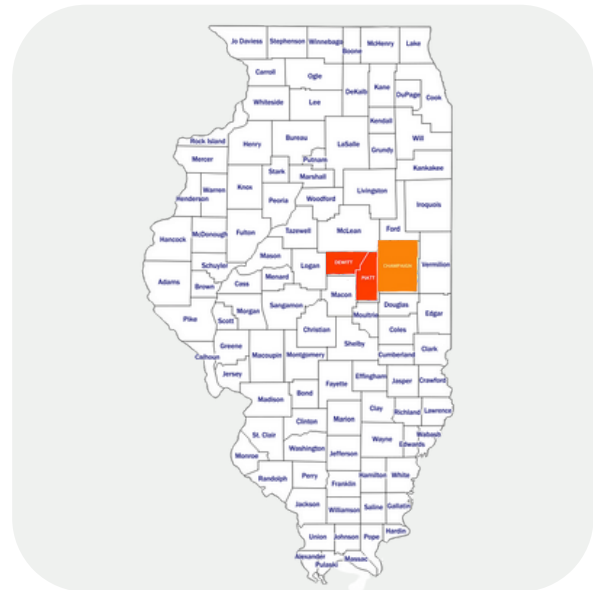

The Natural Resources Conservation Service (NRCS) offers PCM farmers funding to grow cover crops.

BENEFITS

Farmers can receive anywhere from **\$35-\$64 per acre** to grow cover crops. Many options are available and funding level increases with more advanced overwintering species, longer contract length, and increased acreage.

REQUIREMENTS

Your PCM Specialist can give you the application for your local NRCS office. Applications are screened, ranked and rated. Approved applications are notified for contract development.
