# NUTRIENT STEWARDSHIP FIELD DAY

WED

**JULY 2<sup>ND</sup>**

**9:00 A.M. – 12:00 P.M.**

**RAIN OR SHINE**

Clark County Farm Bureau, Precision Conservation Management, Clark County Soil & Water and community partners are committed to supporting local and statewide nutrient loss reduction efforts. Please join us for a water run-off demonstration that will note the effect of tillage on soil compaction and water infiltration. A drone demonstration will show seeding patterns and beneficial options they can offer. Learn more about realistic cover crop management considerations and have a stronger understanding of how cover crops can fit into a crop rotation system from our informative speakers.

## **SPEAKERS TO INCLUDE:**

**9:00 A.M.** Check-in and Welcome at Jacob Gard's Farm

**Jacob Gard** | *Precision Conservation Management* | Date and Cost Share

**John Pike** | *Pike Ag LLC* | Rainfall Simulator and Cover Crop Management Considerations

**Eric Beckett** | *Illini FS* | Cover Crop Seeding and Termination

**Tony Weber** | *Green Creek Drones* | Drone Seeding Demonstration
